

CRRC Rated Products Directory User Guide

What is the CRRC Rated Products Directory?

- Free online tool <https://coolroofs.org/directory>
- Quick and convenient to use
- 3,000+ rated roofing products from all major product types
- New products added regularly
- Helpful job aid for contractors, architects, building managers, and more!

Results are displayed in a sortable table:

1. Use the up and down arrows to sort and reorder products
2. A letter after the CRRC ID means the product is a reformulation of a previously rated product
3. Vertical lines denote that the product may be marketed under additional brand and model names or available in multiple shapes / profiles
4. An asterisk indicates the product obtained a Rapid Rating, which will be replaced by three-year aged values once the weathering period is complete
5. Click the "+" to reveal manufacturer contact information, website, and additional details such as product slope

A list of all products can be printed or exported as an Excel file. Hover over underlined text for more information.

Use the CRRC Rated Products Directory to find products that meet a variety of needs:

- Reduce Urban Heat Island
- Lower energy bills
- Fit a specific architectural style
- Meet LEED and Green Globe certification
- Show code compliance
- Get financial incentives (e.g., rebates)

Product Type

- ☐ Asphaltic Membrane
- ☐ Asphalt Shingle
- ☐ Coating
- ☐ Fluid-Applied Membrane
- ☐ Foam
- ☐ Metal
- ☐ Other
- ☐ Polymer/Composite
- ☐ Single-Ply
- ☐ Slate
- ☐ Stone/Rock
- ☐ Tile
- ☐ Wood

Color

- ☐ Red
- ☐ Orange
- ☐ Yellow
- ☐ Green
- ☐ Blue
- ☐ Purple
- ☐ Bright White
- ☐ Off-White
- ☐ Tan
- ☐ Grey
- ☐ Black
- ☐ Brown
- ☐ Metallic
- ☐ Multicolor

Minimum Radiative Properties

Solar reflectance (0.00, 1.00)	Initial 0.00	3 Year 0.00
Thermal emittance (0.00, 1.00)	0.00	0.00
Solar Reflectance Index (SRI) (-10, 125)	0	0

Manufacturer: All

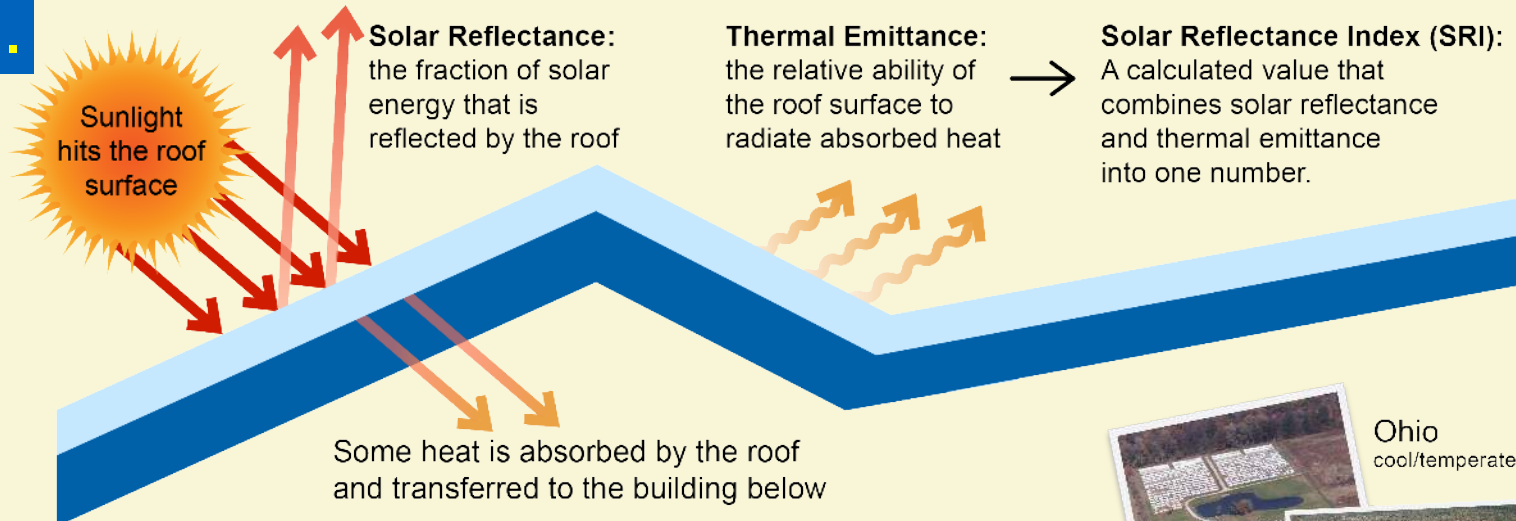

Slope: All

Product Market: All

1. **Solar Reflectance:** the fraction of solar energy that is reflected by the roof

Thermal Emittance: the relative ability of the roof surface to radiate absorbed heat

Solar Reflectance Index (SRI): A calculated value that combines solar reflectance and thermal emittance into one number.

2. All rated products undergo three-year weathering at an Accredited Test Farm. An aged value of "Pending" indicates that three-year weathering is not complete.

3. **Run** **Rise** **Slope**

Low-Sloped Roof: A roof surface with a slope (rise to run) ratio $\leq 2:12$ (9.5° from horizontal).

Steep-Sloped Roof: A roof surface with a slope ratio $> 2:12$.

4. Indicates if the product is sold to other roofing manufacturers, end-use customers, or both.
